THE BIEDERMAN CONNECTION

Around Hearn Plaza have you noticed those forest-green bistro tables and chairs? How about the Ping-Pong tables outside the Deacon Shop?

Two black-and-gold carts on either side of the Quad would be suitable for a flower vendor on the Champs-Élysées, but here they contain Scrabble, yoga mats and kettle bells.

Dan Biederman, the global expert on vibrant public spaces who transformed Bryant Park in New York City, and his team have been helping our community add the Quad amenities and envision others for our campus spaces. The Quad is not just for Frisbees anymore.
